## SPANISH BUTCHERY.

Men, Women and Children Killed by Weyler's Soldiers.

EITHER SHOT OR BAYONETTED.

The Town of San Miguel de Pandrome Captured First by the Patriots, but the Garrison Returned to Spill Blood—Death of Delgado—Ravages of Smallpox and Yellow Fever.

JACKSONVILLE, Fla., Jan. 21.—The Cubans here have received a full report of another butchering raid by Spaniards, one of the most cruel yet reported, since Weyler began his bloody work. Five hundred patriots, under command of Colonel Francisco de Paulo, dashed into San Miguel de Padrone, Havana province, Saturday night. The Spanish garrison, consisting of 600 men, withdrew from the town without firing a gun. The Cubans held possession for three hours, looting the stores, public buildings and many of the residences occupied by Spanish families. They captured the mayor and forced him to deliver the tax money in his possession, amounting to \$3,000. After firing the business portion of the town and several private residences the Cubans withdrew.

As soon as they withdrew the inhabitants—men, women and children—busied themselves trying to extinguish the flames and saving their effects.

While thus engaged the Spanish forces returned, and, it is alleged, opened fire on the men, women and children who were fighting the flames. Volley after volley was poured into the helpless inhabitants, many of whom, in their terror, rushed into the burning houses and were cremated. The Spaniards then charged with their bayonets through the streets, sparing neither women nor children, but piercing them through without mercy.

Forty persons were killed outright, 18 of whom were women and children. Sixty others were wounded, some of them fatally. Nearly 100 persons fell victims to the cruel butchery.

In reporting the affair the Spanish commander, it is said, stated that the Cubans attacked the town, but were repulsed with heavy loss. He then adds that 12 of the inhabitants were killed by Cuban bullets.

### DELGADO IS DEAD.

The Daring Young Correspondent Breathes His Last in Prison.

WASHINGTON, Jan. 21.—Consul General Lee has telegraphed the state department that the American, Henry Delgado, correspondent of the New York Mail and Express, who has been a prisoner in Havana, died in the hospital there Tuesday night.

Henry Delgado's home was at Hudson, N. Y. General Fitzhugh Lee had interested himself to the utmost in the case of the unfortunate. Delgado was captured by the Spaniards while he was lying ill in an insurgent hospital in Pinar del Rio, in December last. From that place he was brought to San Ambrosio hospital, which is set apart for political prisoners.

The immediate cause of Delgado's death was an abscess of the stomach, which refused to yield to treatment. Consul General Lee's reports show that the man had the best of attention ever since his case was brought to his attention. Dr. Burgess, the resident inspector of the United States marine hospital service in Havana, was designated to attend the sick man and the Spanish authorities at the request of General Lee furnished the best accommodations in the hospital that were obtainable under the circumstances.

Delgado suffered horribly from neglect, it is said, in the early stages of his ailment, before he was arrested. For 10 weeks he lay in a bare hut almost without attention. About Dec. 10 last he was found by the Spanish forces in Pinar del Rio, and sent under arrest to Havana. Upon discovering how ill he was the man was removed to San Ambrosio hospital, and some weeks ago an operation was performed upon him, the abscess in the stomach being opened. This failed to heal and the exhaustion that followed doubtless was the cause of death.

Assistant Secretary Rockhill, upon receiving the news of Delgado's death, promptly notified by telegraph his family in New York, and also informed them that they were at liberty to have the remains removed from Cuba and shipped on the next steamer from there. Word was also sent to the New York merchants who have interested themselves in the case of the unfortunate correspondent.

### HAVANA DISPATCHES.

Nice Little Stories Told by the Spanish Censorship.

HAVANA, Jan. 21.—Captain General Weyler arrived yesterday at San Jose De Lajas, in Havana province.

Several skirmishes have occurred in the provinces of Santa Clara and Matanzas. A Spanish column has destroyed several camps and the insurgents left 27 killed, among them being a captain. Three prisoners were also taken and 10 firearms.

The force of the battalion of San Quintan and the crew of the gunboat Delgado Parejo have effected a landing at Punta Caoba, in Pinar del Rio province, and destroyed an insurgent camp, killing 10 men.

Many men continue to come in from the insurgent camps in Pinar del Rio and surrender without their arms. They are put in jail as political prisoners. To celebrate the king's saint day,

which occurs Jan. 23, those who have been arrested for rebellion and who are not charged with other serious crimes, will be set at liberty, which indulgence, however, is to be limited in its application to the province of Pinar del Rio. Colonel Ricardo Gonzales Fraile, lately arrived from Spain, has been named as second chief of staff, a Lieutenant Colonel Toofilo Garamendi has been named chief of staff ad interim.

### YELLOW FEVER AND SMALLPOX.

Disease Threatens to Play Greater Havoc Than Fire or Sword.

HAVANA, Jan. 21.—There are now 2,068 cases of smallpox in Havana. At Guanajay, in Pinar del Rio, which has only 10,000 inhabitants, there are 467 cases. Yellow fever and malaria are also ravaging the country, and it may be safely affirmed that the sanitary condition of Cuba is a far greater danger to the United States than the much feared bubonic plague of India.

At the end of March the depressing warm weather begins here and then diseases of a contagious nature spread twice as fast as during the winter.

Cuba is now a focus of disease. The smallpox was introduced here by the 200,000 soldiers from Spain. The Spanish common people are not cleanly in their habits, and, moreover, they come to Cuba crowded by thousands into the dirty steamers of the Compania Transatlantica, in which no well bred American would travel.

Under such conditions these soldiers land in this city, where there is no sewerage system.

There is no hope of improvement in this state of things under Spanish domination.

### CUBA'S RESOURCES.

She Could Rank With the Foremost Countries of the World.

WASHINGTON, Jan. 21.—In answer to what he conceives to be a popular demand on the part of the American people for information as to the productive powers of Cuba, United States Consul Hyatt at Santiago has supplied the state department with an interesting report devoted entirely to a concise yet complete description of the enormous natural resources of the Queen of the Antilles. He says that Cuba should rank among the foremost communities of the world, and he believes she will soon attain this distinction, whenever a stable government and cheerful obedience to the powers that be present to the home-seeker and investor conditions that will make home pleasant and capital secure.

The iron mines, overshadowing in importance all other industries in the eastern section of the island, constitute the only industry that has made any pretense to standing up against the shock of the present insurrection. Two companies (American) have a capital of over \$5,000,000 and employ from 800 to 1,400 men, shipping their rich ores to the United States. American capital opened a manganese mine at Ponopo and built a railroad to it, but after shipping one cargo the mines were stopped by the insurgents. The coffee plantations were just getting nicely started when the present rebellion broke out, and there will, says the consul, probably be but a few, if any, coffee plantations remaining when the struggle ends.

### MAN OF MANY MISFORTUNES.

Seven Fingers and One Thumb Saved Off at Different Times.

SHELBYVILLE, Ind., Jan. 21.—The most unfortunate man in this place as regards accidents is Mr. Charles Spurlin. He is an employee in a furniture factory, where, at different times, he has had three fingers cut off of one hand and his thumb and one finger off the other.

Last evening, just before quitting time, Spurlin was running a double-groover containing four rip-saws. He had one piece to run through, but in doing this he placed his left wrist on the saws, almost severing the hand and cutting the tips off the remaining three good fingers. Spurlin is married and has a family.

### Students Fighting the Cigarette.

GREENCASTLE, Ind., Jan. 21.—The pupils in the public schools of Greencastle are up in arms over the deadly cigarette and have organized anti-cigarette leagues in all three of the ward buildings. At each of the buildings officers, consisting of a president, secretary and two vice presidents, have been elected and the pupils are taking an active part in the fight against the "coffin nails." The students believe they can accomplish much good in their organization.

### Two Hundred Conversions.

SYRACUSE, Ind., Jan. 21.—The meetings in progress at this place under the direction of Mrs. M. B. Woodworth, have resulted in 200 conversions. The religious enthusiasm has become so great that business is practically at a standstill. Mrs. Woodworth continues to work alleged miracles, and this place has become a mecca for persons suffering from bodily ailments, who believe Mrs. Woodworth can cure them by divine supplication.

### Destitution in Chicago.

CHICAGO, Jan. 21.—More destitution now prevails in Chicago than for 25 years past. The bureau of associated charities says that hundreds of families are starving. A shocking case of destitution was reported. A man was found sick with pneumonia, lying on a floor in front of a leaking faucet. The room also sheltered the man's wife and one child, while the corpse of another child lay in a corner covered with rags.

## SENATORS SELECTED.

Contests in Several States [Finally Settled.]

W. A. HARRIS ELECTED IN KANSAS.

Populist Caucus Make the Selection on the Thirty-Fifth Ballot—Senator Pritchard Re-Elected by the North Carolina Legislature—Jacob H. Mullinger Elected in New Hampshire—Other Contests.

TOPEKA, Jan. 21.—William A. Harris of Linwood was nominated for United States senator in the Populist caucus last night on the 35th ballot. When the caucus met last night his vote was larger than Tuesday night, and on each ballot his strength gained. On the 34th ballot he had 54 votes, one less than enough, and on the next ballot he secured 57 votes. Half a dozen men rose to make it unanimous and the chairman announced him the choice of the caucus. The 35th ballot stood: Harris, 57; King, 32; Breidenthal, 5; Little, 5; Madden, 2; Martin, 1. Senator Pepper dropped out a few ballots before. Both houses will meet in joint session next Tuesday at noon, when last night's nominee will be elected United States senator.

W. A. HARRIS.

Mr. Harris is 54 years old and a native of Virginia. He came to Kansas in 1865, and was a Democrat until 1890. In 1892 he was elected by the Populists as congressman at large and held the place until 1894, when defeated by Blue, the present Republican incumbent.

SENATOR PRITCHARD RE-ELECTED. The North Carolina Legislature Sends Him Back For Another Term.

RALEIGH, Jan. 21.—Senator Pritchard has been elected to succeed himself in the United States senate by the legislature in joint session. Mr. Pritchard, (Rep.) received 88 votes; Thompson (Pop.) 43; Doughton (Dem.) 33. There were six members not voting. Eighteen Populist voted for Pritchard and one Democrat (Cathey) voted for Thompson.

SENATOR J. C. PRITCHARD.

After the result had been declared Mr. Pritchard was invited and entered the chamber, accompanied by Governor Russell and Congressman Skinner. All three made speeches, Pritchard saying that he stood on the silver question where he stood two years ago.

Mr. Skinner said his course had been taken for the good of the Populist party and he did not see how any harm could come to it in electing a man who was pledged to free silver.

Mr. Pritchard has already left for Washington, together with Congressman Skinner and Stroud. Senator Butler expects to remain here a week longer.

### No Election in Washington.

OLYMPIA, Wash., Jan. 21.—Both branches of the legislature met in joint session at noon and took the first joint ballot for United States senator without result as follows: Turner, 19; Squire, 2; Cline, 13; Baker, 7; Daniels, 13; Denny, 26; Rader, 6; Davis, 8; Winsor, 9; Newell, 1; Range, 1; McGready, 1; Wescott, 1; Andrews, 1; Foss, 1; Witt, 1; Catton, 1.

The second ballot showed no change except in the Populist vote. The third ballot gave Turner a gain of two votes, making 21.

### Two Ballots Taken in Utah.

SALT LAKE CITY, Jan. 21.—The legislature took two ballots for United States

senator. Both of them resulted as follows: Thatcher, 21; Rawlins, 16; Henderson, 17; Lawrence, 4; Goodwin, 3; Nebeker, 2.

### Senator Mullinger Now.

CONCORD, N. H., Jan. 21.—In the legislature Jacob H. Mullinger was formally elected United States senator for a term of six years, beginning March 4 next.

### JOSEPH GRAY MURDERED.

An American Killed in the Mountains of Mexico.

POMONA, Cal., Jan. 21.—Henry Gray, who recently went to Mazatlan, Mex., to visit his brother, Joseph Gray, a well known gold miner of Arizona, and a graduate of the State University of California, writes that the latter has been murdered in the mountains, 47 miles from Mazatlan. Joseph had been in Mexico two years looking after his mining interests, which he had in connection with Richard Gird, the sugar beet millionaire of China. Last October he found what seemed a very valuable gold mining prospect in the mountains near Mazatlan, but because of the mining laws, by which it is hard for aliens to make claims to discovered mines, he kept the location of his find secret, and waited until influential and wealthy American capitalists should arrive from the City of Mexico to aid him.

Gray kept his secret well, though whenever he had occasion to go to the mountains he was stealthily followed by some Mexicans. The last seen of him was early Christmas morning, when he informed the hotelkeeper that he was going to look over his mining property.

Four days later his mutilated body was found in a canyon in the San Lorenzo mountains. He had evidently been shot with a Winchester rifle. His head had been severed from his body and hidden in the bushes two miles further up the canyon. His clothes were cut away, so as to prevent identification. The authorities in Mexico have been investigating the case, but they have not as yet found the least clew to the identity of the murderers.

Joseph Gray was born in Portland, Or., 35 years ago. He was brought up in Sacramento, where his relatives still reside. He was a first cousin of United States Senator Wolcott of Colorado, and is heir to \$75,000 from an aunt in Oregon. At the University of California he ranked high as a mineralogist. He leaves a wife and an infant son in Oakland. He was one of the most successful young gold miners in central Oregon five years ago.

### FORGER PLEADS GUILTY.

Sentenced to the Penitentiary For Six Years and Six Months.

NEW YORK, Jan. 21.—Walter B. Peters, who was arrested on Nov. 6 last, for forgery in connection with W. H. Connors, Otto V. Thomas and "Kid" Smith, yesterday pleaded guilty and was sentenced to state prison for six years and six months.

The men flooded the country with bogus bank drafts, upon which they realized thousands of dollars. Thomas was arrested in New York and made a confession, implicating the other men. Peters was caught in Chicago, and extradited to this city.

Connors was sentenced at Flint, Mich., for one year for forgery, the sentence having been greatly mitigated by the court on account of his confessions which included strong testimony against the others.

Smith has never been caught. Peters is said to have been the man who made the lithographing stones from which the bogus drafts were printed.

### Elevated Road Unprofitable.

CHICAGO, Jan. 21.—The Metropolitan West Side Elevated road is in the hands of a receiver. A bill to foreclose the mortgage protecting the issue of \$15,000,000 of bonds was filed in the federal court yesterday afternoon, and Judge Showalter appointed Dickerson MacAllister, the chief engineer of the road, as the receiver. The road is \$37,000 in default on the August interest and unable to pay the February interest due in a few days. An effort has been on foot for some time looking to the extension of the bond issue in order to tide over the affairs of the company, but it has been unsuccessful.

### Riot in Hungary.

VIENNA, Jan. 21.—A riot has occurred at the Anna mines and in the steel works of the state railway company at Reschitz, Hungary. The gendarmes were called out and fired upon the rioters, killing eight persons and wounding 12 other. The wives of the strikers were prominent in the riot and several women are among the killed and injured. The military are still held in readiness as a renewal of the trouble is expected.

### Minister Willis' Remains Arrive.

SAN FRANCISCO, Jan. 21.—The steamer Australia, from Honolulu, brought the remains of the late Minister Willis from the Hawaiian Islands. Mrs. Willis and son accompanied the remains, which will be taken directly to their home in Louisville, Ky. The Hawaiian government sent no military escort with the body as was at first planned.

### Boston Blaze.

BOSTON, Jan. 21.—Fire this morning destroyed the immense 5-story granite block between Commercial and Mercantile streets, occupied almost entirely by wholesale grocery firms. The fire broke out in the section occupied by Charles E. Moody, 75 and 77 Commercial street, who was the heaviest loser. The loss will reach \$125,000.

## WITCHCRAFT SCARE.

Seventeen Families Afflicted With a Peculiar Malady.

SOME ON THE VERGE OF DEATH.

They Can Not Sleep or Rest at Night and Keep Pining Away Until They Are Mere Skeletons—Fire at Middletown—Demon Ira Makes Threats—Other Ohio State Dispatches.

TOLEDO, Jan. 21.—Richfield Center, a little village in this county, 17 miles south of here, is in the midst of a genuine witchcraft scare. The little community is composed principally of Germans and are thoroughly convinced that they are being made the victims of some witch or other agent of his satanic majesty. There are 17 families afflicted with the peculiar malady. The thing has been going on for nearly a month and some 30 persons are on the verge of death.

The peculiar malady seizes a whole family at a time from the youngest to the oldest. They can not sleep or rest at night, and keep pining away until they become mere skeletons. The symptoms in all cases are similar. Several of those afflicted claim that they are being constantly pursued by black cats, which make faces and snarl at them. Some of them also claim that certain rooms in their houses are infested with the strange evil spirit, while other rooms are free from its influence.

A. M. Miller came to the city and reported the matter. He is a victim of the strange disease, and had to be carried to and from the carriage which conveyed him, owing to weakness. His wife and four sons are down with the disease and are likely to die.

Richfield Center is located 10 miles from a railroad station. Mr. Miller says that the people firmly believe the whole thing is the work of some witch whom they can not locate.

Some of the horses, cattle, sheep and swine are victims of the disease.

The people have burned their featherbeds and resorted to other ancient methods in the hope of getting rid of the spell, but they claim they can not shake it off. Physicians can not diagnose the malady, but assure the patients that it is due to natural causes, possibly resulting from an unsanitary condition of the village.

### FIRE IN MIDDLETOWN.

A Young Man So Badly Burned as to Lose an Arm.

MIDDLETOWN, O., Jan. 21.—Fire broke out in the Berry block at an early hour yesterday morning and before it was extinguished destroyed the entire top floor. A large stock of groceries stored in the building by Frank Burke & Manning Brothers, grocers, was badly damaged by smoke and water.

Gus Lutes, a clerk sleeping in the building, was so badly burned that amputation of the right arm will be necessary.

Loss on building is fully covered by insurance, but stock is a total loss.

### Demon Ira Threatens Again.

COLUMBUS, O., Jan. 21.—Ira Marlatt, the famous prison demon, has served notice on the penitentiary authorities that unless they allow him more liberty he will "turn himself loose" again as he puts it. Ira has been behaving well since agreeing with Mr. Rose of the board of managers that he would do so, but after he calmly informed the guards one day that he was liable to get mad and kill them he has not been permitted to take promenades about the prison yard. That abridgment of his privileges has displeased the fellow and he has been sullen ever since.

### Paid an Old Election Bet.

AKRON, O., Jan. 21.—R. G. Adams of this city has received a letter from William Arnold of Battle Creek, Mich., enclosing \$5 and interest at 7 per cent in payment of an election bet they made in a little town in New York 13 years ago. Adams had wholly forgotten the wager.

### Her Burns Proved Fatal.

HAMILTON, O., Jan. 21.—Christina Upferman, who was desperately burned by a gasoline explosion, died at Mercy hospital. Her condition remained unchanged until she suddenly passed away. She undoubtedly inhaled the flames.

### Died of Her Injuries.

PIQUA, O., Jan. 21.—Mrs. Mary Fessler, who was horribly burned about the face, shoulders and breast by accidental upsetting of a lamp Sunday night and whose sufferings have been intense, died yesterday as the result of her injuries.

### NEWPORT BANK FAILURE.

Cashier Youtsey Owed the Concern About \$350,000.

CINCINNATI, Jan. 21.—The examination into the condition of the First National bank of Newport, which failed on Monday, will not be completed by the government officer for a week or 10 days, and then it will be forwarded to the comptroller of the currency. It is claimed from other sources that the indebtedness of Cashier Youtsey to the bank will reach \$350,000, and although he has turned over real estate and securities estimated to be worth \$150,000, it will not be possible to realize more than one-half his indebtedness.

A most disagreeable feature of the failure is the tying up of the school funds on deposit, also the funds of the county treasurer.

THURSDAY, JANUARY 21, 1897.

**INDICATIONS.**—Rain or snow, followed by clearing weather; slightly colder Thursday night; brisk west winds.

The Cincinnati Post, which, like the BULLETIN, gives you all the news for a cent, reports a daily average circulation last year of 159,163, an increase over the daily average of previous year of 36,709. It printed, all told, close to 50,000,000 copies last year. The Post continues to get there in a manner that is gratifying to its friends.

Mr. FRANK P. O'DONNELL is announced in this issue as a Democratic candidate for County Attorney. He was the nominee four years ago and was defeated by only a few votes. It has been his intention all along not to enter the race this year, but at the urgent solicitations of many of the prominent Democrats of the county he has changed his mind, and is in the fight. Mr. O'Donnell is one of the brightest young attorneys at the Maysville Bar, and by his upright and gentlemanly conduct at all times and his devotion to his party he has won a host of friends throughout the county who will gladly rally to his support in the present contest.

This country's foreign trade last year is regarded as remarkable, all things considered. The exports of merchandise exceeded one thousand millions of dollars, beating the country's record, while they exceeded the imports by three hundred and twenty-five millions of dollars, which is twenty millions larger than the great trade balance in our favor in 1878, the largest heretofore known. We imported fifty millions more gold than we exported, reversing the current of several years past.

A New York firm says: "When people wake up fully to the significance of these figures and to the further fact that peace with the whole world is now practically assured to this country, they will discover a more solid basis for a rise in values and for general prosperity than the country has known for fifteen years."

And just think, all this occurred under the Wilson bill.

## A CITY WITH NO TAXES.

"There are many large cities in Europe where the taxes are so small as to be scarcely felt," says the Grocers' Journal of Commerce. "There is one—Glasgow—where the taxes have been entirely abolished. And yet all of these cities are well paved and lighted, with an excellent system of sewerage and parks and all those features which make cities attractive and tend to reduce the death rate; while life and property are quite as secure as in any American city which is suffering from high taxes and ring domination.

"There is no secret about the way Glasgow is managed. Like every city in America, it is a corporation in which every citizen is a stockholder; but unlike American cities, it is not controlled by political parties for their own interest, rather than for the benefit of the stockholders. Politics do not enter into the municipal management of Glasgow or any other European city of note. Valuable franchises are owned and operated by the municipalities for the benefit of the people, though in some cases they have been granted on conditions that the beneficiaries pay into the city treasury a percentage of their earnings. In America, as a rule, valuable franchises are practically given away.

"There are a good many useful lessons we can learn from the Old World, and by no means at least valuable is that which pertains to municipal government."

## Hints For the New Year.

[Exchange.]

It is within the power of the people of this country, without reference to the past, to make the new year a success. They can do it if they will:

- Work hard;
- Save money;
- Pay their debts;
- Patronize home industries;
- Pay a living wage to labor;
- Mind your own business;
- Keep up courage in American institutions, and
- Behave themselves generally.

The old story of Prometheus is a parable. Prometheus was on terms of intimacy with the gods. From them he stole fire, and gave it to men. For this sin he was bound to the rocks of Mount Caucasus, and vultures were set upon him. They only ate his liver. This grew again as fast as it was pecked away. Are his sufferings to be imagined?

Take a modern interpretation of the parable. There is no cooking without fire. In cooking and eating the mischief lies. The stomach is overtasked, the bowels become clogged, they cannot dispose of the food given them. The impurities back up on the liver. Dr. Pierce's Golden Medical Discovery is more than equal to the vultures of dyspepsia and its kindred diseases. There is no more need of suffering from dyspepsia than there is of hanging one's self. Sold by all medicine dealers the world over.

The happy couple took the L. and N. to Cincinnati where they will visit relatives and before returning will visit Mr. and Mrs. George Burk, near Millersburg. They will take up their residence near Washington.

### Notice.

The Progress Shoe Store will quit business in four days. Parties owing the firm will please call at once and settle.

There are forty-two candidates for the various offices in Grant County.

### Care For Your Shoes.

Never try to wear a shoe too small or that does not fit when you first put it on. There is no misery more nearly distracting than a shoe that hurts the foot. Never let your shoes get hard and dry. Don't let them run over. Don't let the heels run down. Don't dry a wet shoe till you have rubbed it well with a flannel cloth and then with vasoline. Never put near the stove. Half a peck of oats, kept in a small box, will be the very cheapest and best foot form for a wet shoe. Fill the shoe and shake the oats down, after having rubbed and oiled it, and set in a dry place to dry gradually. When dry, pour the oats back for further use. Do not "black upon blacking" more than a week at a time. Take a wet rag and wash the shoe at least once a week and oil overnight to keep in good condition. Never handle patent leather until you have warmed it. Never wear rubbers with good shoes. Put on old shoes in wet weather. There is no part of the apparel of a lady or a gentleman which should be more scrupulously neat or that is so often scandalously neglected.

### A Gymnastic Pig.

A Kentucky pig has suddenly developed a genius for gymnastics and engineering which eclipse the proudest previous achievements of his race. This eminent pig was recently placed by his owner in a pasture surrounded by a high wall and ornamented by elm trees festooned with wild grapevines. The walls, however, could not confine his bold and vagrant spirit. Selecting a tree standing near the western wall of the pasture, he carefully bit loose the lower end of a stout grapevine, which was attached by its tendrils to a limb on a tree, and, taking this improvised rope in his mouth, swung himself in the air until he gathered an impetus which sent him entirely over the wall and landed him in the next field. Though often recaptured, he has constantly repeated this extraordinary feat, and his intelligent owner, instead of cutting down his elm trees to restrain his pig's wandering propensity, has decided to educate him for the trapeze business.—St. Louis Globe-Democrat

## BIBLE TRAINING CLASS.

It Will Be Formed at the Y. M. C. A. This Evening—The Juniors—The Men's Rally Last Sunday.

A Bible Training Class will be found this (Thursday) evening at 8:15 o'clock in the association parlor, and every one interested is invited to be present at this time, when the object, scope and methods of such a class will be fully explained by the General Secretary.

The junior members and their boy friends will have their first social gathering in the association parlor on Friday (to-morrow) evening from 6:30 to 8 o'clock. An informal program consisting of games and music principally is being arranged, and the boys are sure to have a good time. Every junior Y. M. C. A. member is invited to bring another boy with him.

On Sunday afternoon from 2 to 2:30 o'clock, a special service for boys is to be held. It will be the first of a series of monthly religious services which are sure to prove interesting and helpful to the junior members and other boys of the city who will be cordially welcomed at this service. The singing will be made an attractive feature, and a very brief talk of interest to boys will be given at each of these gatherings.

The men's rally last Sunday afternoon was conducted by Mr. I. M. Lane, who called upon several of the young men to explain the State work of the Y. M. C. A.,—what it is; how the State Committee is appointed and organized and the many different lines of work that are carried on under the supervision of the State Committee and State Secretaries. A collection for this important and necessary work of supervision and extension was taken, but as the needs of the committee are pressing at this time, it is hoped that generous friends will supplement the small collection with donations.

The general supervision of the thirty city, railroad and college associations of Kentucky is in the hands of this State Committee, composed of representative Christian business men from all parts of the State. Mr. Wm. H. Cox is the local representative on this committee. A State Secretary and a College Secretary devote their whole time in this general work, assisting in the maintenance of the work in the fields where it is already established, and organizing new associations where needed.

The sixteenth annual State convention of the Kentucky Young Men's Christian Associations will be held at Frankfort February 18th to 21st. Prominent speakers have been secured and a most excellent program arranged. The Frankfort Association will entertain delegates and the railroads have granted a one fare rate for the round trip. It is not too early to plan to attend this gathering. It will be the best ever held, and the Maysville Association ought to send a large delegation.

### The New Railroad.

The Owingsville Democrat contains the following in reference to a proposed new railroad: "B. F. Perry received the following on January 7: 'I will thank you to lay the inclosed and papers which I send under separate cover, before your leading citizens. We are going to build a railroad between Jellico, Tenn., and the Ohio river, and thence to Columbus, O. Please indicate your views for such a line between Beattyville and the Ohio river, say at Higginsport, O., or Maysville, Ky. The line has been surveyed between Beattyville, Ky., and Jellico, Tenn., and hence we want information for the best line, and the grade must not exceed 66 feet to the mile between Beattyville, via your place, if possible, and the Ohio river. Early attention is urgently requested.' Respectfully, ALBERT E. BOONE.

## HAPPY'S FRIENDS AREN'T HAPPY.

Because the Branch Pen's Warden May Have His Official Head Cut Off by the Governor.

FRANKFORT, January 18.—The truth of the published rumor that State Inspector Lester is about to recommend the removal of Superintendent Letcher, of the Hopkinsville asylum, and Warden Happy, of the Eddyville prison, and recommend the appointment of men of greater executive ability, is virtually admitted by the officers here who should know about the matter.

It is also said that the Inspector's report will bring up a political argument in the Prison Board or Board of Sinking Fund Commissioners; that while the Governor will likely follow his Inspector's recommendation and remove his appointee at the asylum, the change at the penitentiary will not be so easily made. Warden Happy was elected by the Prison Board, made up of five Sinking Fund Commissioners, some of whom are Happy's friends and who will, it is said, fight for him and against his removal.

"Yes," said a State official this morning, "I believe that Happy's removal will be recommended, but I don't believe he will be allowed to go. He will have at least three votes in the Prison Board of five that will refuse to fall in with the Inspector's view of the case."

THE wheat crop of Australia for the coming harvest is so short, according to estimates reported to the State Department by Consul Bell at Sydney, that it will reduce Australia from her position as sixth wheat exporting of the globe to about the eleventh wheat importing country. Instead of being an exporter of about 12,000,000 bushels per year, Australia will have to import not far from 5,000,000 bushels. The United States will supply the chief part of the world's deficiency, caused by the loss of Australia's product, and making a difference of 17,000,000 bushels.

IN affirming the case of Wood, &c., against Wood from Robertson County, the Court of Appeals says: "The rights of persons of unsound mind are under the special protection of courts of equity and it is their duty to see that no injustice is done to such persons in the sale of their property under judicial decree. But in this action by a person of unsound mind suing by next friend to set aside the confirmation of a sale of his land under decree, upon the ground that there was a fraudulent agreement by the purchaser with another to prevent competitive bidding, the evidence fails to establish the alleged fraud; and as it is not obvious that the property would bring more upon another sale the ends of justice do not require that the sale should be set aside, although the land sold for something less than its salable value."

### THE L. AND N.

Its Earnings in 1896 Show a Handsome Increase Over the Previous Year.

The summing up of the business of the Louisville and Nashville Road for 1896 shows that the gross earnings of the lines were exactly \$20,247,340, against \$19,809,198 during 1895.

This was an increase of just \$436,142—certainly an excellent showing when nearly all the big systems in the United States did not earn enough to show an increase.

The last week of the year showed an increase of \$82,640. This increase was rather large in the face of the conditions.

**This Setter Hunts Frogs.**

"Talk about your dog stories," said a prominent sporting man the other day. "I saw something out at Cutoff lake which beat anything I ever heard of. I was out there hunting snipe and saw a man riding around on horseback, and in front of him was circling an Irish setter. As the fellow did not have any gun, my curiosity was aroused to know what he was doing, but I supposed he was simply breaking his dog. In a few minutes I saw him ride up to where the dog was on a dead stand, and the horseman proceeded to jab a pole he was carrying down into the ground, and, bringing it up, took something off the end of it. My curiosity was greater than ever, and, circling around, I came up with the horseman and asked him what he was doing.

"Hunting frogs," was the reply.

"What is the dog doing?" said I.

"Hunting frogs," was the laconic answer.

"You don't mean to tell me that the dog will set the frogs, do you?"

"I don't mean anything else."

"A few more questions and answers brought out the fact that the dog had seen his master hunting around in the grass for frogs and spearing them and had of his own accord taken up the task of locating the green beauties. He was a thoroughly trained hunter of birds, and he soon became very expert in locating frogs, so his owner informed me, and my observations of his movements confirmed the statements."—Omaha Bee.

**Making Allowances.**

"Confound the boy," he exclaimed as he opened one of the letters the postman had brought and spilled half his coffee.

"What is the matter, dear? Look out! You will spoil the tablecloth," remarked the wife of his bosom.

"Tablecloth be hanged. It's that boy Tom."

"What has he been doing? I am sure he's getting along finely. He writes me that he is on the eleven."

"That's all very well, but here I have a bill from his tailor, and I only paid one last week."

"But look at the nice set he is in."

"Yes, but why the mischief doesn't he economize? Doesn't the young rascal know the value of money?"

"But Tom is so young, dear. You ought to make allowances for him."

"Allowances! For heaven's sake! I have been making allowances enough for him, and I'll stop his allowance this month," he cried as he left the breakfast room to go to the office.—Chicago Times-Herald.

**Bank Robber Trap.**

The latest device for bringing to naught the ill directed energy of the thief who presents a pistol to the head of bank officials in broad daylight and during business hours is reported from the west. This species of criminal audacity is getting to be painfully common of late, the usual plan being for the bandit to select an opportune moment, when lots of money is in sight, and rush up to the window, thrust his pistol through the cashier's opening and demand the funds on pain of instant death in case of a refusal. The system devised for trapping this species of the gentry consists of a trap fitted in the floor in front of the pay window and so nicely adjusted as to be unnoticed except upon close examination. The dropping of the trap is effected by a knob on the inside and readily accessible to the cashier. Directly beneath the drop a shoot extends downward about six feet and converging to a point at the bottom. The sides of this shoot are lined with spikes, which project inward and downward. When Mr. Robber steps to the window and makes his demand, the cashier grabs the money with one hand, as if to deliver it, says, "All right, here you are," and with the other turns the knob that unlatches the drop, when "down goes McGinty," wedged into the shoot between the spikes, from which no amount of cursing will extricate him, and the bank partition, being bulletproof, if he chooses to shoot, it only adds to the alarm already given by the bank's officials, which brings the police to bag the game so effectually caught.—New Ideas.

**His Awful Break.**

The fair girl from Boston gazed upon Harold Bentley's face, and a new feeling took possession of her. He was one of Cleveland's most aristocratic young men and as handsome as a Greek god.

After they had been introduced they strolled away from the crowd, and he told her about his sisters and his mother, who were in Europe, and Beatrice Montgomery suddenly realized that the flame of love was beginning to flicker in her breast.

She talked vivaciously of her days at Wellesley and of her explorations in the rich mines of Sanskrit and of her investigations of the Mahatmas and the occult flappings of the far east.

Then he told her about his horses and his rubber tired traps, and they gazed into each other's eyes and sighed a lot of long drawn sighs and were beginning to feel that they had passed through the pearly gates and were strolling through streets that were paved with gold.

At last Beatrice Montgomery said: "You have told me about your mother and your sisters being in Europe, but you have said nothing about your father. Is he with them?"

"No," the handsome young man replied after a painful pause; "he is not with them. My mother is a widow woman."

When the doctors had finally succeeded in bringing the fair Boston girl out of her swoon, she waved her hands at Harold Bentley and wildly cried: "Take that man away!"—Cleveland Leader.

**Many People Perished.**

ATHENS, Jan. 21.—An earthquake has occurred at Delvino, Turkish Epirus. Several villages, mostly inhabited by Christians, have been destroyed, and it is feared many people have perished.

**St. Louis, Jan. 21.**—Ralph Cress and Dr. Adelia Walters have been found guilty of counterfeiting in the United States district court. Walter Cress was acquitted. The jury disagreed in the case of W. H. Jennett, who was also indicted. Dr. Walters fainted when the verdict was returned.

**SENATE AND HOUSE.**

The Day Devoted to Speeches in Both Branches of Congress.

WASHINGTON, Jan. 21.—The senate proceeded with the consideration of the Nicaragua canal bill, Mr. Turpie continuing his speech in opposition. His remarks were bitterly antagonistic to the Nicaragua Canal company, the senator characterizing its methods as those of Peter Funk.

The legislative, executive and judicial appropriation bill, carrying approximately \$23,000,000, was passed during the day.

Mr. Pettigrew of South Dakota severely criticised the executive authorities for concluding the Venezuelan boundary agreement, which he said was a complete surrender of Venezuela to Great Britain. His resolution calling on the secretary of state for information was referred to the committee on foreign relations.

Unanimous agreement was secured for taking up the bill for an international monetary conference on Tuesday next.

**In the House.**

WASHINGTON, Jan. 21.—The house spent the day debating the Yost-Tucker contested election case from the Tenth Virginia district. Much interest was manifested in the case owing to the fact that the Republicans on the committee which reported the case were divided, four siding with Mr. Tucker, the Democrat, and the sitting member, and but two with the Republican contestant, Mr. Yost. The latter is a member-elect of the next house, and Mr. Tucker is one of the most prominent and popular Democrats on the floor. The vote will be taken this afternoon at 4:30.

**KIDNAPED AND BADLY USED.**

Masked Men Drag W. M. H. Walker Out of Bed at Midnight.

TERRE HAUTE, Ind., Jan. 21.—Yesterday morning, just after midnight, five stalwart, masked, but plainly colored men, battered in the front door of the residence of W. M. H. Walker, colored, 1508 South Thirteenth street, and dragged him out of bed.

After he had been brutally maltreated, he was marched down the street with a butcher knife at his throat, and the procession proceeded in the direction of a cornfield, in the remote southeastern part of the city. Here he was held and tortured in many ways, at one time being hanged from the limb of a tree until there was danger of suffocation. He managed to crawl home yesterday morning and tell his story to the police, to whom the episode had been reported, and who were scouring that portion of the city all night.

Walker is accused of too much gallantry, and in this way he had aroused the enmity of the neighborhood.

**THEY MAKE WHEELS.**

And They're Going to Be Kept Busy For More Than a Year.

PORTLAND, Ind., Jan. 21.—A representative of a Cincinnati supply firm has placed an order with the Haynes Wheel company of this city for 10,000 sets of wheels. The order is one of the largest single ones ever given and has a tendency to make the managers of the local industry feel very much elated.

The Haynes wheel factory has only been in operation a few months, but has met with wonderful success, and before the Cincinnati order was booked had sufficient orders to run it until next August. It has put in \$7,000 worth of improved machinery and employs 55 expert workmen in addition to the unskilled labor.

**No Prospects of a Settlement.**

LEADVILLE, Colo., Jan. 21.—The mine owners, it is understood, will pay no attention whatever to the strikers' request for arbitration of the questions at issue between them. E. V. Debs considers that the strikers make a mistake in rejecting the terms offered by the mine owners. The strikers preferred to follow the advice of President Boyce of the Western Federation of Miners rather than that of Debs.

**Indiana Miners Accept a Reduction.**

TERRE HAUTE, Ind., Jan. 21.—Operators of bituminous mines along Vandalia road, east of here, who have been paying the 60-cent price asked by the men last May, now demand that the men accept 55 cents, the price which the miners of the state had to accept a month ago as a result of the eight-months' strike. About 500 men have accepted and others will do so.

**Will English Very Ill.**

INDIANAPOLIS, Jan. 21.—William E. English, ex-congressman and millionaire, son of the late William H. English, is lying critically ill at his rooms in this city. For some time he has been suffering from stomach trouble, and within the past few days malarial fever has developed. This has resulted in a complication which makes his condition precarious.
